This Profile provides information about the application of IFRS Standards in Qatar. IFRS Standards are developed and issued in the public interest by the International Accounting Standards Board (the Board). The Board is the standard-setting body of the IFRS® Foundation, an independent, private sector, not-for-profit organisation.

This Profile has been prepared by the IFRS Foundation based on information from various sources. The starting point was the answers provided by standard-setting and other relevant bodies in response to surveys that the IFRS Foundation conducted on the application of IFRS Standards around the world. The IFRS Foundation drafted the Profile and invited the respondents to the survey and others (including regulators and international audit firms) to review the drafts, and their comments are reflected.

The purpose of the IFRS Foundation's Jurisdictional Profiles is to illustrate the extent of implementation of IFRS Standards across the globe only. The Profiles do not reflect the intellectual property licensing status of IFRS Standards within any given jurisdiction. The IFRS Standards are protected by copyright and are subject to different licensing arrangements according to jurisdiction.
